Cc: Kathy Hodgkiss, Walter Wilkie

- The CIC continues to answer questions from residents related to EPA's sampling activities.
- The CIC received another media request today from Energy in Depth for an on-camera interview. The request was referred to the Office of Public Affairs for follow up
- The CIC participated in the sampling event today to manage any media interest. There was none.
- The CIC has drafted a residential mailing list to use for any future communications, such as fact sheets, etc.
- The internal team continues to work on refining the Communications Strategy for residential data.
- In response to residents' requests for data results from the "short list", the CIC is revising the current FAQ fact sheet to include EPA's approach to data communication.
